

# Google TV Instructions for Installing and Configuring the 4K VIP App

This guide contains 3 sections:

**Section 1:** Installing Downloader

**Section 2:** How to Install 4K VIP Using Downloader

**Section 3:** Configuring 4K VIP

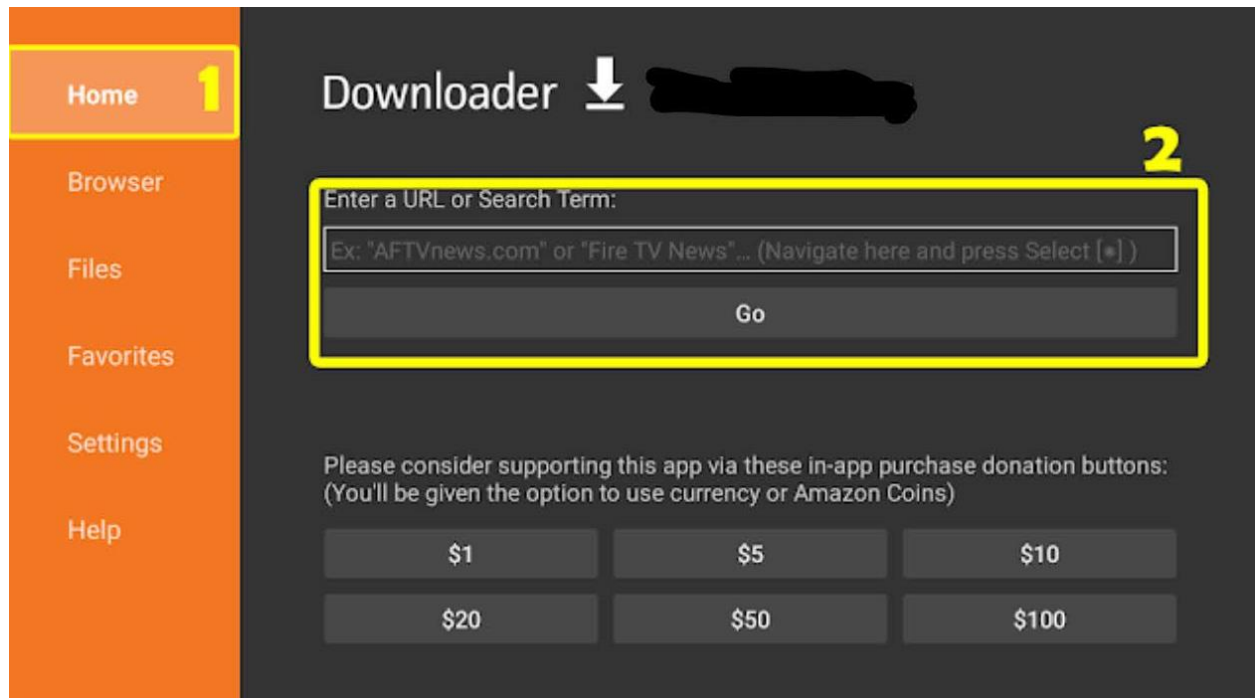

## Section 1: Installing Downloader

To download the **4K VIP app**, you must first install **Downloader**. If Downloader is already installed, you may skip this step and go to Section 2.

1. On the Home page, scroll over to **Apps** at the top.
2. In the Search Bar at the top, type in **Downloader**.
3. Select **Downloader** and click **Install**.
4. Once it's installed, select **Open**. *(Upon initial launch of Downloader it should prompt you to allow access to Photos and Media on your device. Make sure you hit Allow, otherwise the app will not work).*

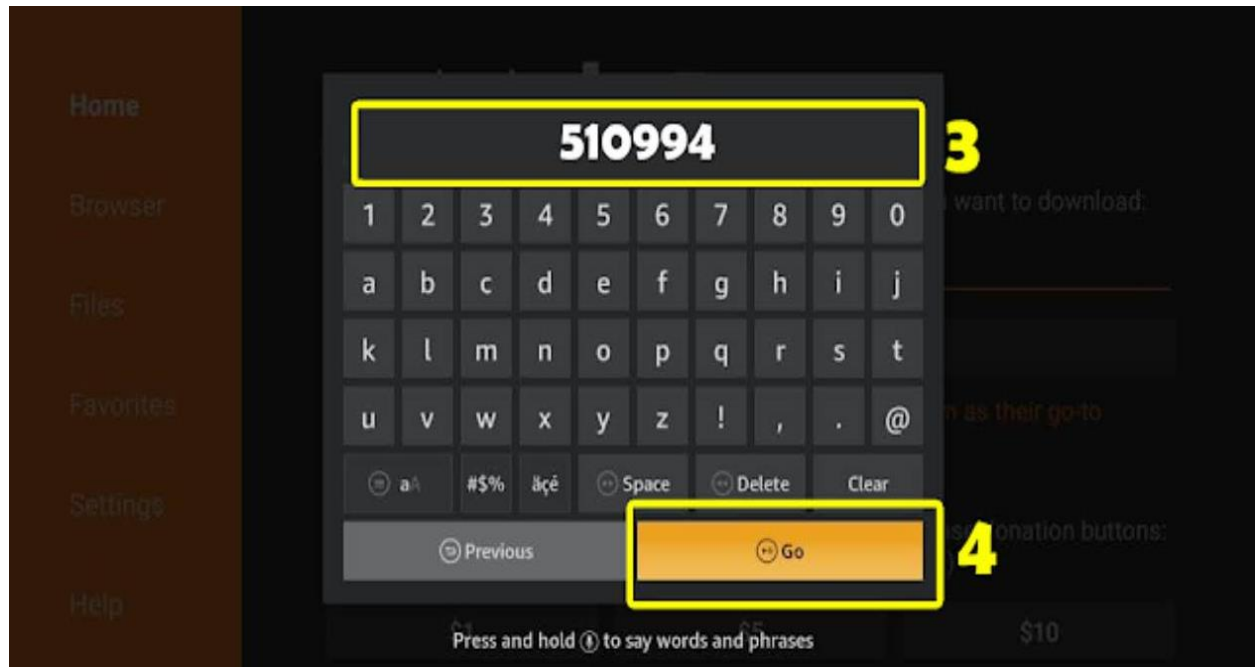

## Section 2: How to Install 4K VIP Using Downloader

1. Open the Downloader app and highlight the address bar.

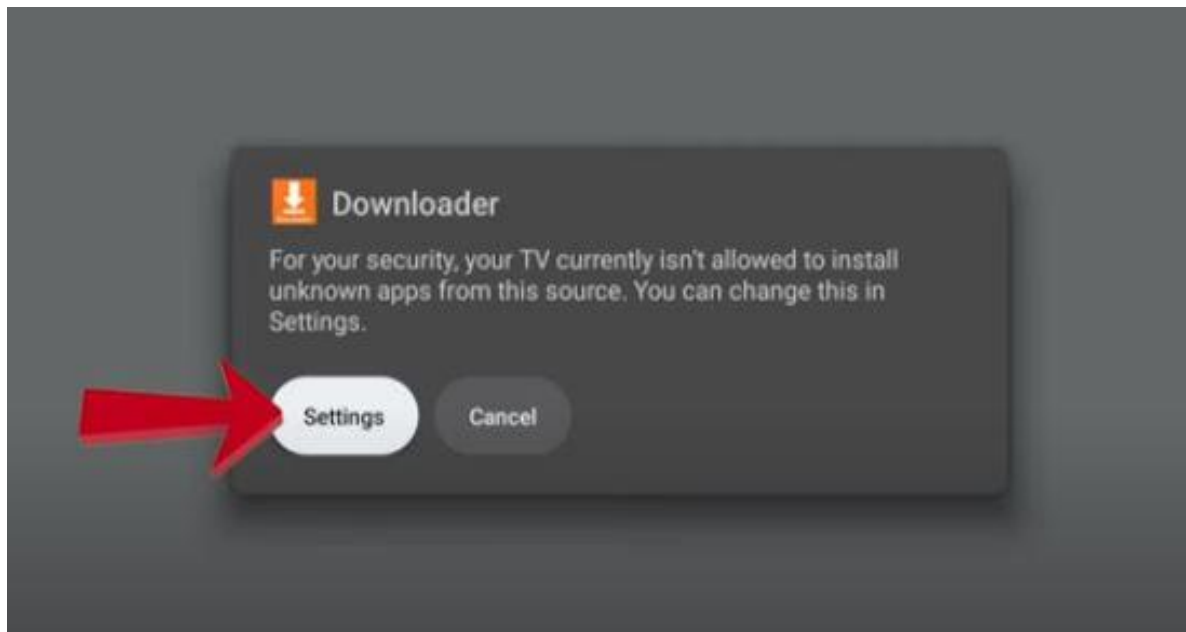

2. **Type** in the following code: **510994**. Once typed in, click on **GO**. The app should then start installing.

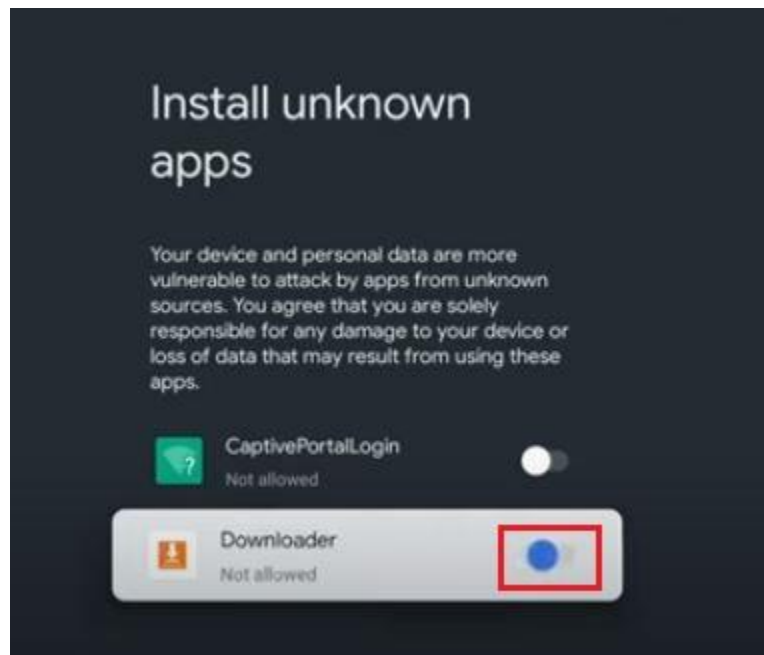

3. During the download you may receive the message below. If you do, be sure to select **Settings** to turn the **Install Unknown Sources** feature..

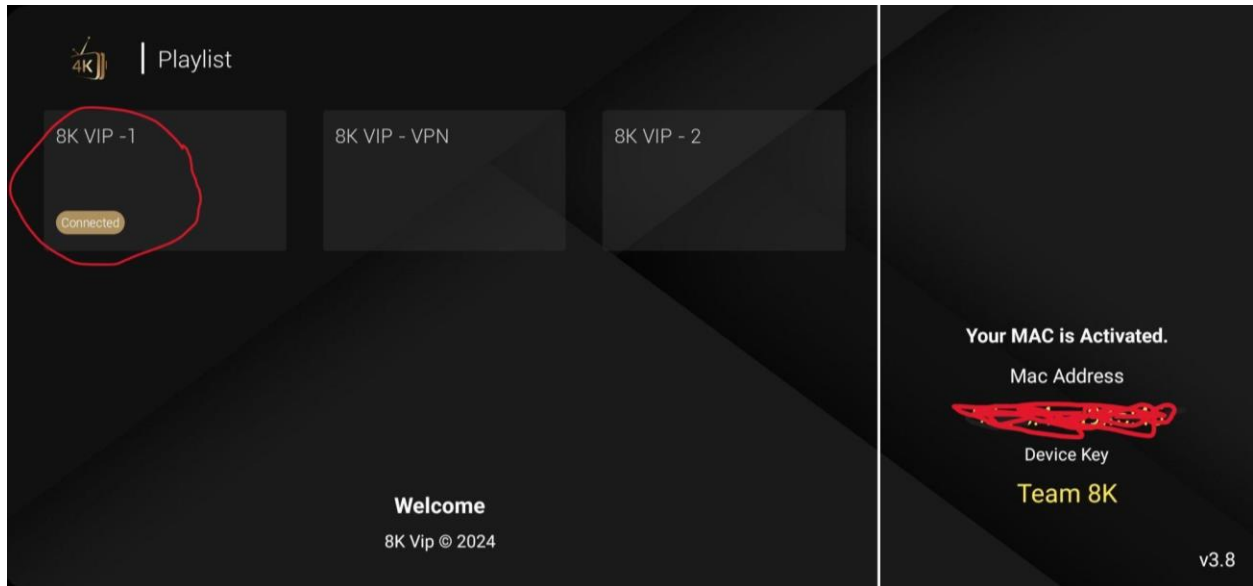

4. Once in Settings, select the **Downloader** option and **toggle on**. You may then resume the download.

## Section 3: Configuring 4K VIP

1. Open the 4K VIP app. Once launched, Select 8K VIP-1.

2. Select **Edit**.

3. Enter the **Username** and **Password** that was given in your Activation email. Leave the Playlist Name as is. After that, select **UPDATE PLAYLIST**.
