This guide contains 3 sections:

Section 1: Installing Downloader

Section 2: How to Install 8K VIP Using Downloader

Section 3: Configuring 8K VIP

Section 1: Installing Downloader

To download the **8K VIP app**, you must first install **Downloader**. If Downloader is already installed, you may skip this step and go to Section 2.

1. On the Home page, scroll over to **Apps** at the top.
2. In the Search Bar at the top, type in **Downloader**.
3. Select **Downloader** and click **Install**.
4. Once it's installed, select **Open**. *(Upon initial launch of Downloader it should prompt you to allow access to Photos and Media on your device. Make sure you hit Allow, otherwise the app will not work).*

Section 2: How to Install 8K VIP Using Downloader

1. Open the Downloader app and highlight the address bar.

2. Type in the following code: **439873**. Once typed in, click on **GO**. The app should then start installing.

3. During the download you may receive the message below. If you do, be sure to select **Settings** to turn the **Install Unknown Sources** feature..

4. Once in Settings, select the **Downloader** option and **toggle on**. You may then resume the download.

Section 3: Configuring 8K VIP

1. Open the 8K VIP app. Once launched, Select **8K VIP CLOUD**.

2. Select **Edit**.

3. Enter the **Username** and **Password** that was given in your Activation email. Leave the Playlist Name as is. After that, select **UPDATE PLAYLIST**.

The title 'EDIT PLAYLIST' is centered at the top. Below the title are two tabs: 'ADD M3U URL' and 'XTREAM-CODES-API'. A semi-transparent form is overlaid in the center. It contains a 'Mac Address' field with an eye icon, a 'Playlist Name' field with the text '8K VIP CLOUD', and two fields for 'Username' and 'Password'. The 'Username' and 'Password' fields are highlighted with a red rectangular border. At the bottom of the form is a button labeled 'UPDATE PLAYLIST'.

4. Once again, select **8K VIP CLOUD**.

5. Select **Connect**.

6. Congratulations! You are now connected.
