

# Samsung/LG Instructions for Installing and Configuring IPTV Smarters Pro

## Samsung Smart TV Setup

### Section 1: Installing IPTV Smarters Pro on Samsung Smart TV

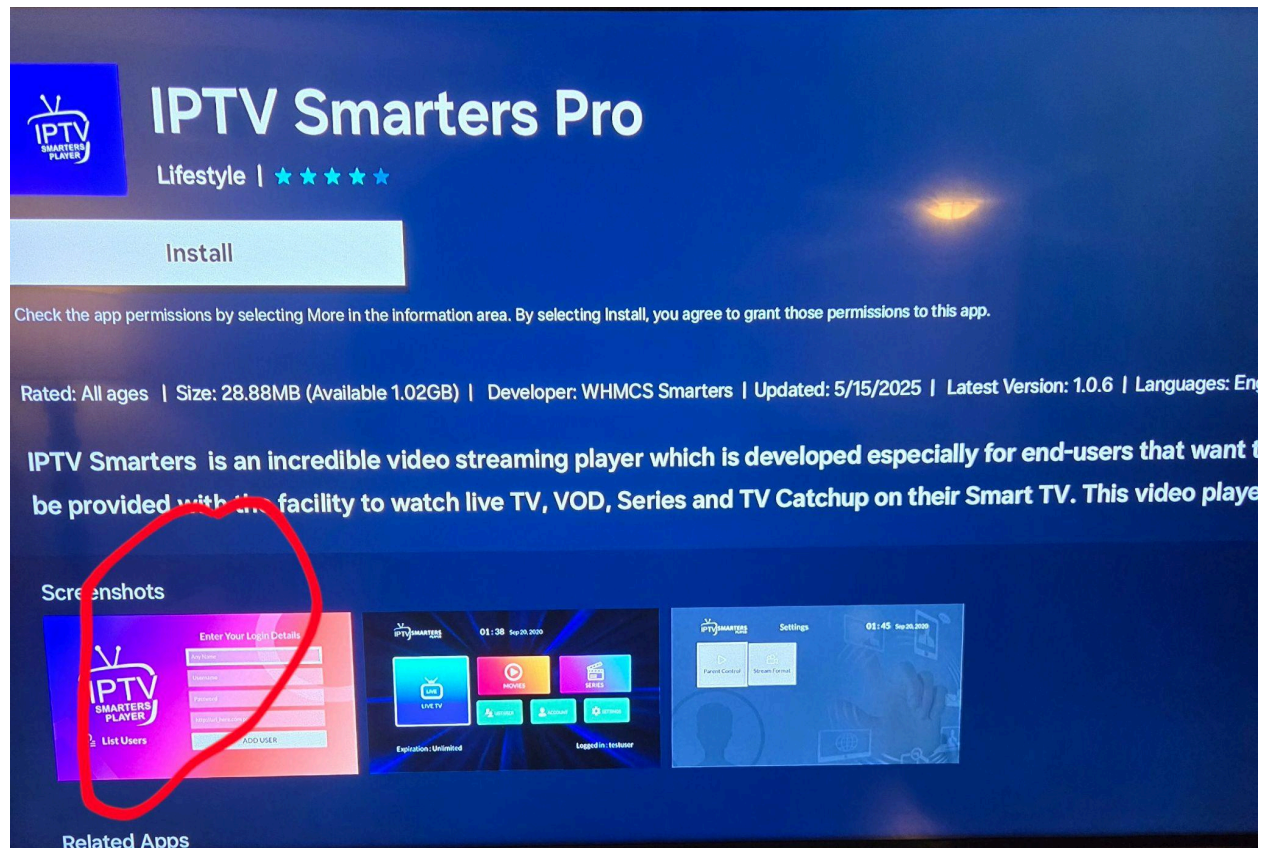

1. Press the **Smart Hub** button from your remote.
2. Search for the **IPTV Smarters Pro** app to install.
  - a. Type in IPTV Smarters Pro in the search bar and 5 or 6 different versions come up. Try the second option.

You will know it's the right version because there will be screenshots when you click on it. This allows you to get an idea of what the app looks like before you install it.

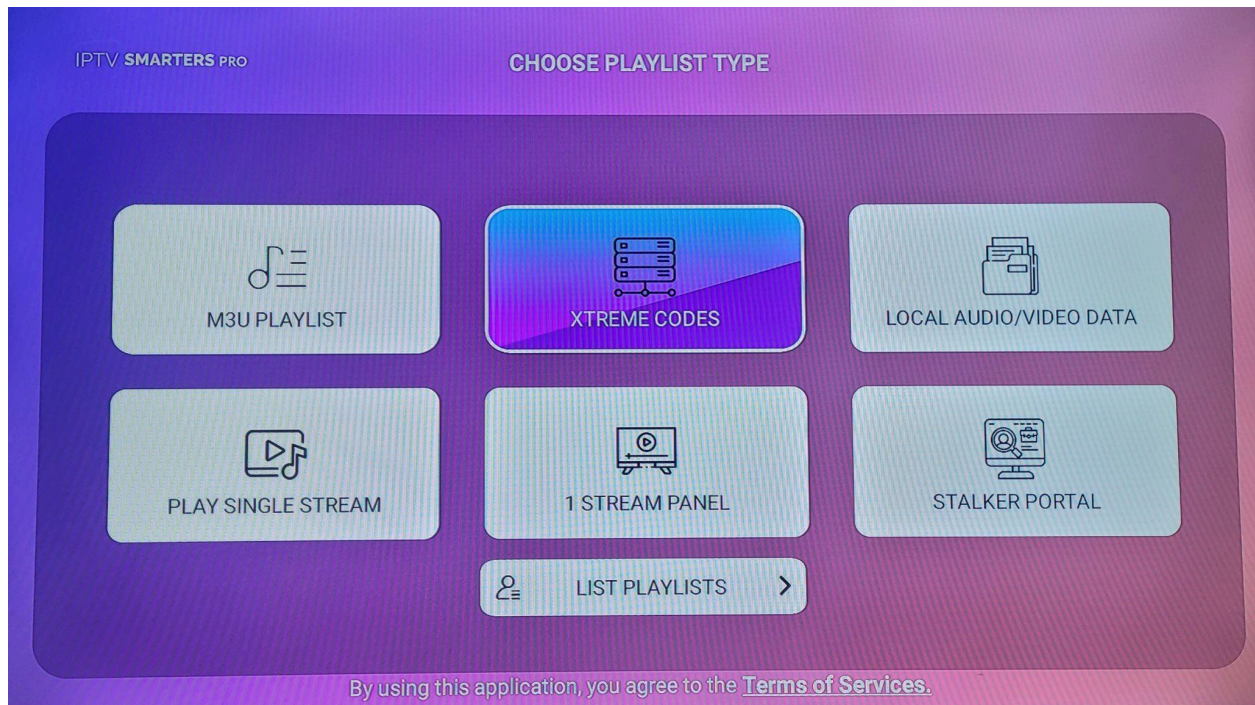

The version you are looking for will have a pink background.

## Section 2: Configuring IPTV Smarters Pro on Samsung Smart TV

### 1. Launch IPTV Smarters Pro and choose XTREAM CODES.

2. Enter in the Login Details you received upon placing your order which entail **User**, **Password**, and **URL**. Name the server any name you like. Once completed click **ADD PLAYLIST**.

The screenshot displays the IPTV SMARTERS application interface. On the left, there is a logo for 'IPTV SMARTERS' and two buttons: 'CONNECT VPN' and 'LIST PLAYLISTS'. On the right, a section titled 'Enter Your Playlist Details' contains a form with the following fields:

- 'Any Name' (text input)
- 'Username' (text input)
- 'Password' (text input with a toggle icon for visibility)
- 'http://url\_here.com:port' (text input)
- 'ADD PLAYLIST' (submit button, highlighted with a red box)

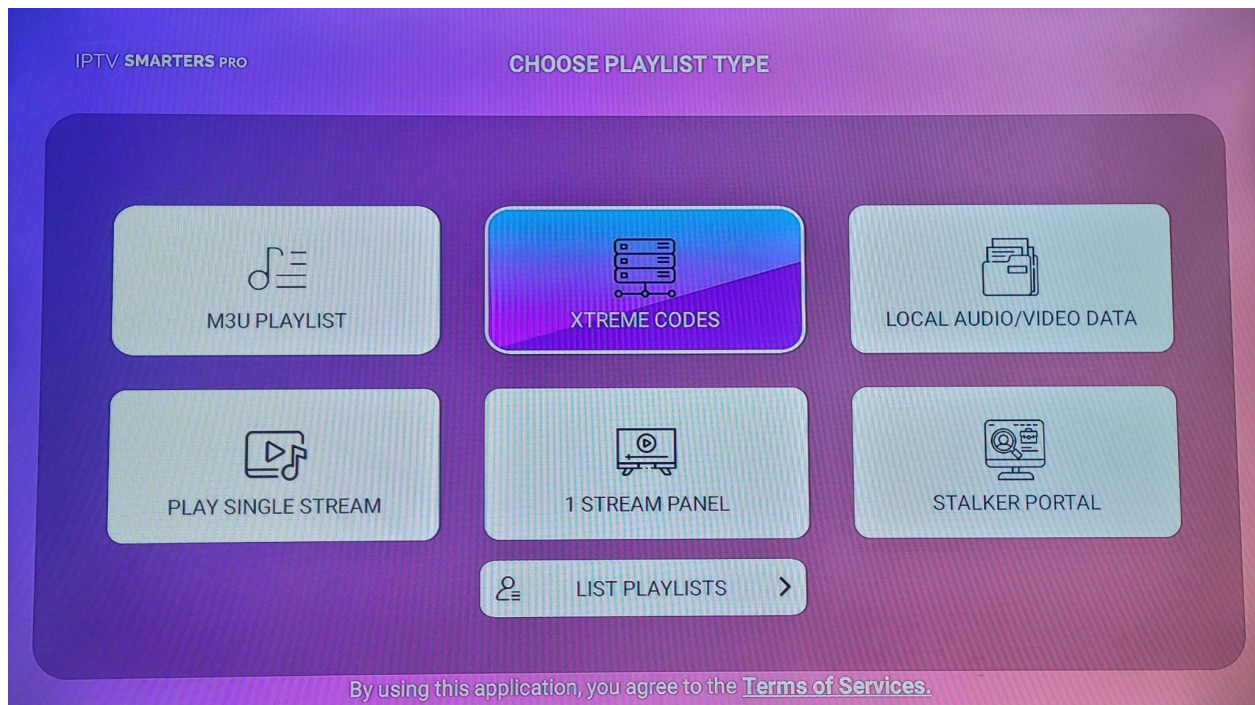

## LG Smart TV Setup

### Section 1: Installing IPTV Smarters Pro on LG Smart TV
