

Google TV Instructions for Installing and Configuring the Tivimate 8K Pro App

This guide contains 3 sections:

Section 1: Installing Downloader

Section 2: How to Install Tivimate 8K Pro Using Downloader

Section 3: Configuring Tivimate 8K Pro

Section 1: Installing Downloader

To download the **Tivimate 8K Pro app**, you must first install **Downloader**. If Downloader is already installed, you may skip this step and go to Section 2.

1. On the Home page, scroll over to **Apps** at the top.
2. In the Search Bar at the top, type in **Downloader**.
3. Select **Downloader** and click **Install**.
4. Once it's installed, select **Open**. *(Upon initial launch of Downloader it should prompt you to allow access to Photos and Media on your device. Make sure you hit Allow, otherwise the app will not work).*

Section 2: How to Install Tivimate 8K Pro Using Downloader

1. Open the Downloader app and highlight the address bar.

2. **Type** in the following code: **1969685**. Once typed in, click on **GO**. The app should then start installing.

3. During the download you may receive the message below. If you do, be sure to select **Settings** to turn the **Install Unknown Sources** feature..

4. Once in Settings, select the **Downloader** option and **toggle on**. You may then resume the download.

Section 3: Configuring TiviMate 8K Pro

1. Open the TiviMate 8K Pro app. Once launched, select **Add playlist**

2. Select **TiviMate 8K PRO CLOUD PRO**

3. Enter the **Username** and **Password** you received in your Activation email. Ensure **Include TV Channels** and **Include VOD** are checked off. Then hit **Next**.
