

Installing and Configuring TiviMate 8K Pro for FireStick

This guide contains 4 sections:

Section 1: Installing Downloader

Section 2: Preparing Downloader to Install the TiviMate 8K Pro app

Section 3: How to Install TiviMate 8K Pro Using Downloader

Section 4: Configuring TiviMate 8K Pro

Section 1: Installing Downloader

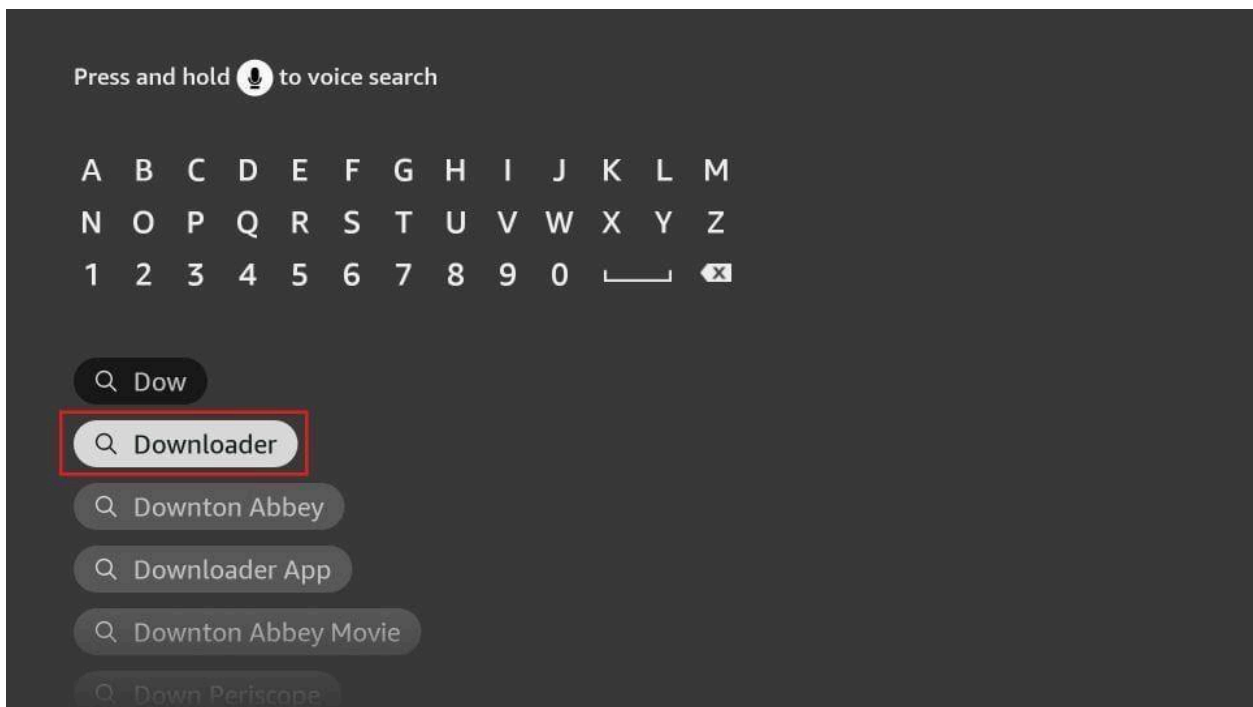

You will first need to install an app called Downloader to download Tivimate 8K Pro onto your device. The Downloader app is officially available on the Amazon Store. You don't have to sideload it onto your device. Here is how you can install the app. If you already have Downloader installed, you can skip this section and move on to Section 2.

1. Go to the Fire TV / Stick home screen if you are not already there. Use your remote to navigate to **Find > Search** on the menu bar in the middle of the screen.

2. Now, type in **Downloader** (without the quotes) using the onscreen keypad. As you begin typing, you should see the app suggestions on the list. When you see **Downloader** on the list, select and click it.

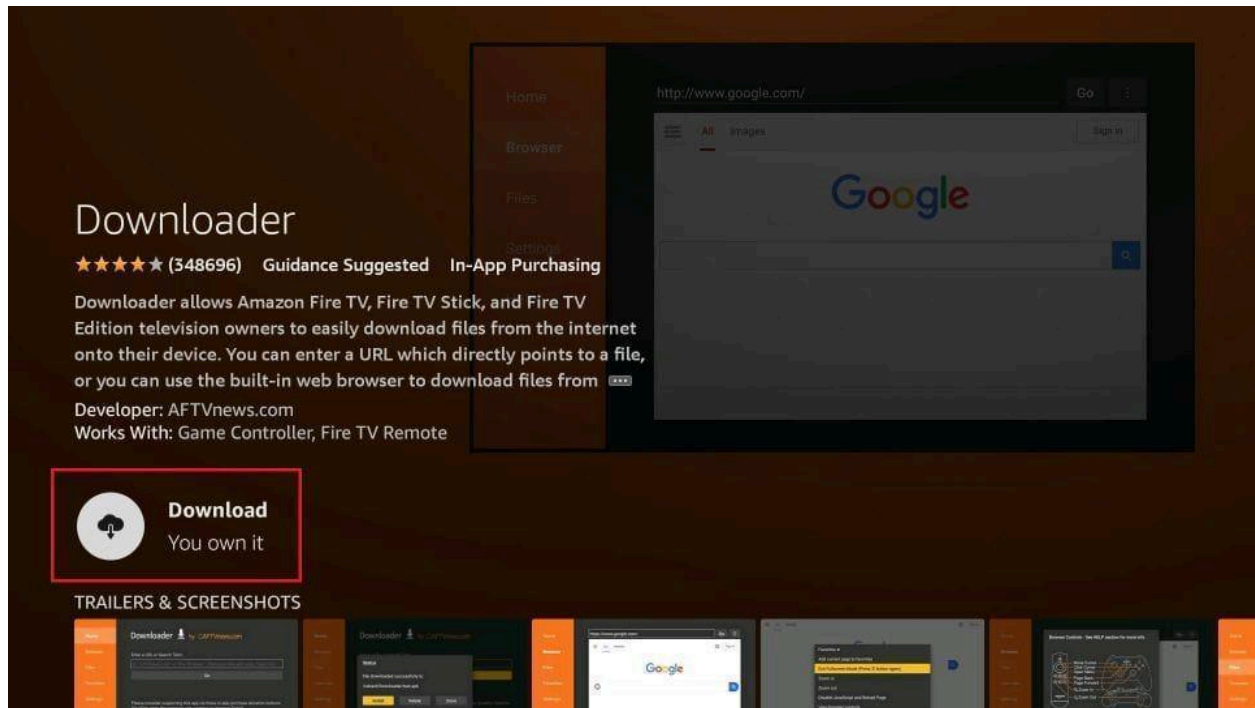

3. You should now see **Downloader** under the **APPS & GAMES** section. Go ahead and **click it**.

4. Click the **'Get'** or **'Download'** button to download and install the app. You should have the app in no more than a couple of minutes.

Once the app is installed, you can access it from the Your Apps & Channels section.

Section 2: Preparing Downloader to Install the TiviMate 8K Pro App

Before we install the app, we must first allow FireStick to install apps from unknown or third-party sources. Please follow these steps:

1. Launch your FireStick home screen and navigate to the **Settings** icon.

2. Scroll down to the **My Fire TV** tile and click on it.

3. Click on **Developer Options**.

Note: *If you don't see Developer Options, then click on **About**. Then Click on the **Fire TV Stick** option quickly 7 times.*

*You will then see a notification at the bottom saying **No need, you are already a developer.***

After that, just press the back button and Developer Options should be seen as below.

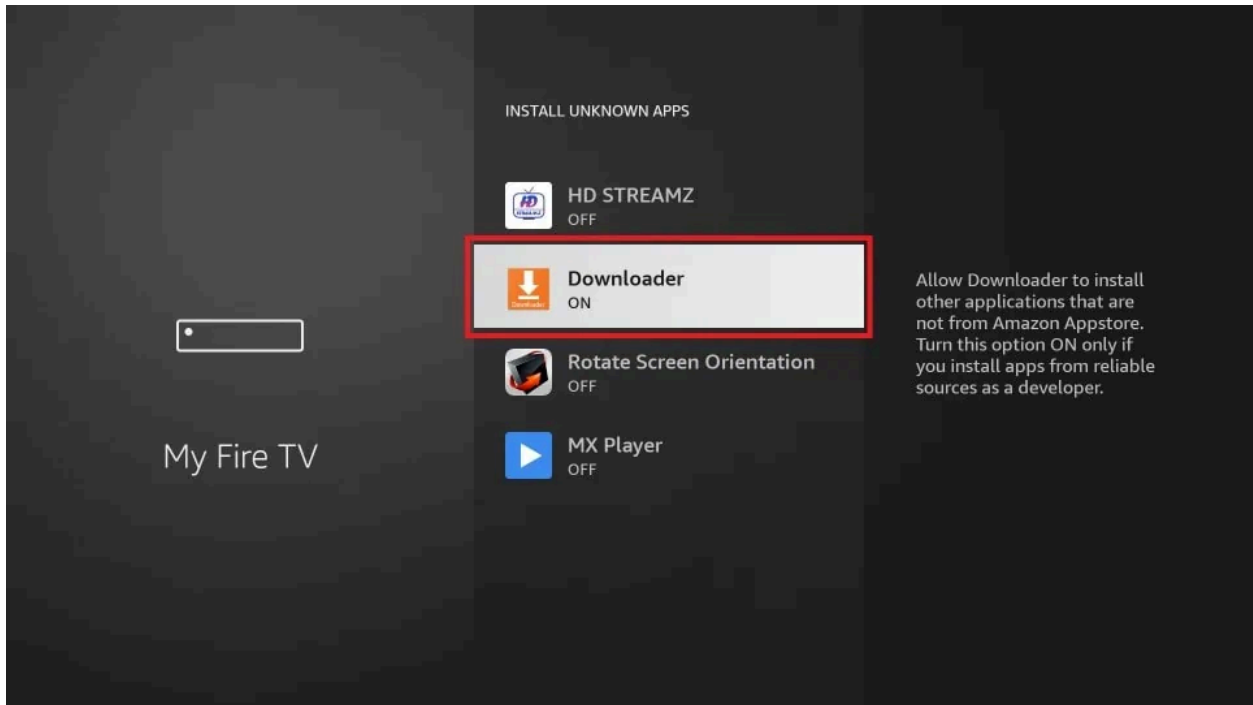

4. Select Install unknown apps.

5. Navigate to **Downloader** and select it to turn it **ON**.

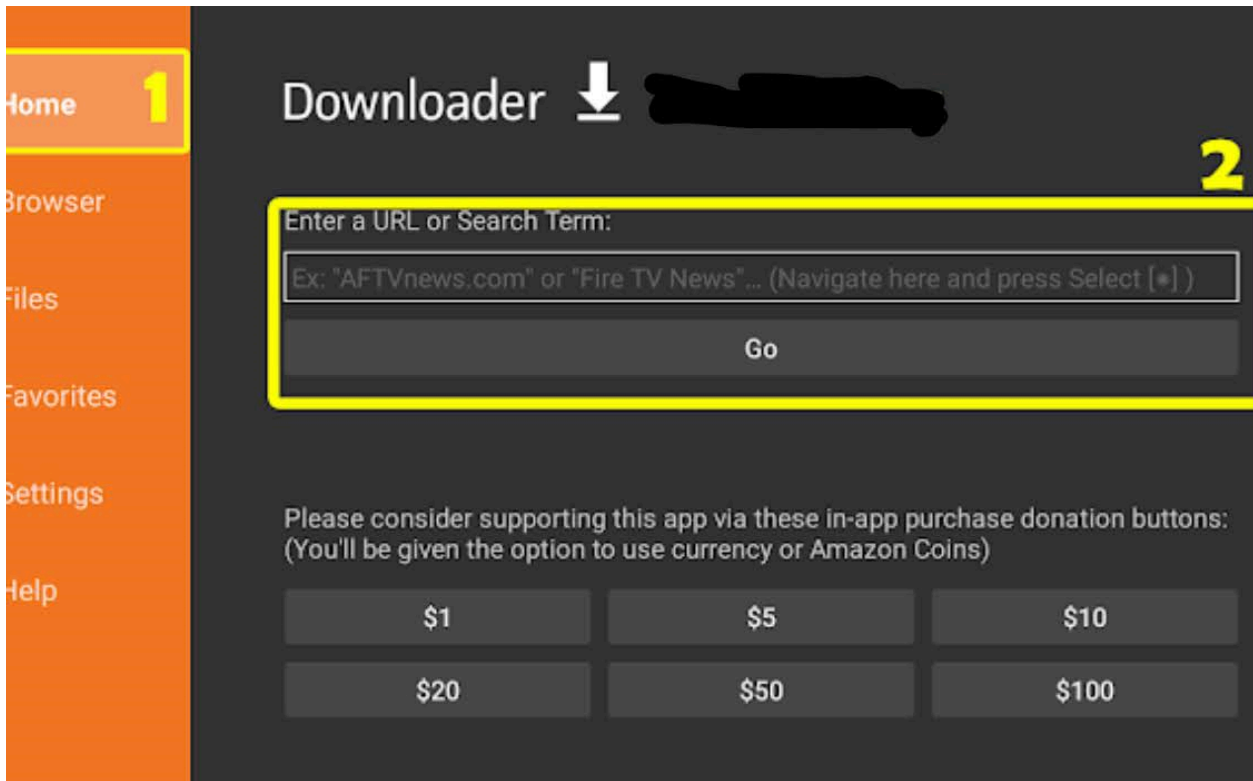

Section 3: How to Install TiviMate 8K Pro Using Downloader

1. Open the Downloader app and highlight the address bar.

2. **Type** in the following code: **3410676**. Once typed in, click on **GO**. The app should then start installing.

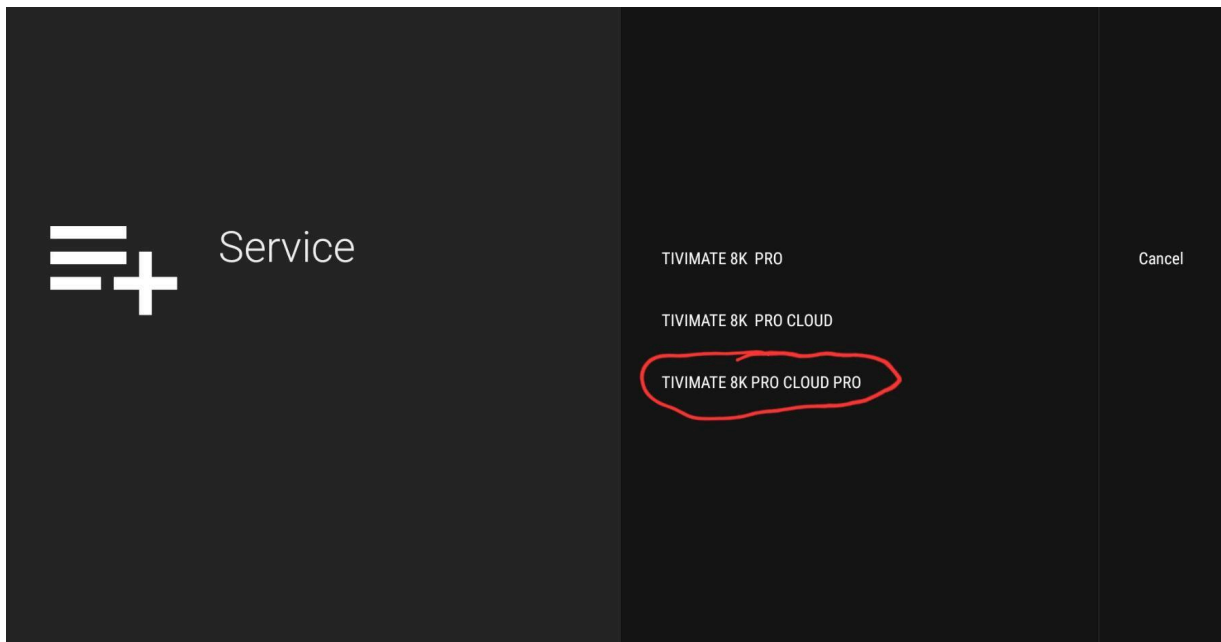

Section 4: Configuring TiviMate 8K Pro

1. Open the TiviMate 8K Pro app. Once launched, select **Add playlist**

2. Select **TiviMate 8K PRO CLOUD**

3. Enter the **Username** and **Password** you received in your Activation email. Ensure **Include TV Channels** and **Include VOD** are checked off. Then hit **Next**.

The screenshot shows a dark-themed interface with three columns. The left column contains a white icon of a TV with an arrow pointing right and the text 'Your Login Details'. The middle column contains a 'Server address' field with the value 'TIVIMATE 8K VPN', a 'Username' field, a 'Password' field, and two checked checkboxes: 'Include TV channels' and 'Include VOD'. The right column contains 'Next' and 'Back' buttons.

4. Once the playlist is processed, click on **Done**.

The screenshot shows a dark-themed interface with three columns. The left column contains a white icon of a downward arrow and the text 'Playlist is processed', followed by the statistics: 'Channels: 8798', 'Movies: 29614', and 'Shows: 7152'. The middle column contains a 'Playlist name' field with the value 'TIVIMATE 8K VPN'. The right column contains 'Done' and 'Back' buttons.

5. You are now connected and have full access to all channels, movies, and shows
